May God make your year a happy one. Not by shielding you from sorrow and pain but by strengthening you to bear it, if it comes. Not by making your path easy, but by making you sturdy enough to travel any path. Not by taking hardships from you, but by taking all cowardice and fear from your heart. Not by granting you unbroken sunshine, but by keeping your face bright even in the shadows. Not by making your life always pleasant, but by showing you where man and his cause need you most, and by making you anxious to be there and to help.

SALEEM AKHTAR:
Strab still sucks!

VASVI AMIN:
To all the great people of the Class of '93
who I have had the privilege of
knowing. The Road is just beginning —
may It bring us happiness and success,
and may our long distances bring us
closer together.

L. THOMAS BABU:

We've finally reached that point
in our lives,
That we begin our Voyage —
head first we dive.
We all know by now our names
will be Doctor,
Which means no more Monday quizzes
and
those stares from the Proctors.
So on May 23rd, there will be
much laughter,
Except from those who'll be working
at Lens Crafters.
You all know by now that
I mean this in Jest,
Just give all that you've got,
and to Hell with the Rest!

WENDY BARHITE:
Pain is temporary.
Pride is forever.
Good luck everyone!

DAVID BUTCHERT:
1. It's a strange world.
2. The spark of ruthless ambition cannot
be snuffed.

BENICA EYVAZZADEH:
Dear Lord Jesus, Thanks for helping me
make it through ICO these four years!
Also thanks Mom & Dad and my two
beautiful sisters for always being there
for me. I'll always love you.

TOM FICKES:
Thank you, God for always being there.
Thank you, parents for being just a phone
call away.
Thank you, friends from afar for
encouraging me to continue.
Thank you, my son Paul for being my
inspiration.
Thank you, fellow classmates for being my
crutch in times of need.
Thank you, several staff members for
teaching and encouraging me.
And no thank you, a few staff members
for using your position as a tool,
To build up your own egos, and to reduce
our self-worth.

ANTHONY J. GUADAGNO:
What the mind can conceive,
And the heart can believe,
You can achieve.

MICHELE JURKOVIC:
Hello wave to all! Thank you to all that
blessed me after one of my sneezes.

LINDA LYONS:
Our education at ICO taught us to be
O.D.'s. Now we have to educate the
community about what today's O.D.'s
can do.

MICHELLE MARCINIAK:
Berkeley Sucks! (At least I spelled it right!)
Good Luck Everyone!

Hold on to the memories
That you all have from

Life is an array of pathways and
You never know who or when or
Where yours will cross with again.

THE OPTOMETRIC OATH

Before God and this assembly,

I solemnly pledge that

I will faithfully and conscientiously administer the art and science of optometry,

I will keep inviolate all confidences entrusted to me as a practitioner and conduct all doctor-patient relationships in an ethical and professional manner,

I will place the treatment of all who need vision care above financial consideration.

I will uphold and promote the ideals of the optometric profession.

I will do all in my power to improve my knowledge of optometry and increase the extent of my contribution to the health and welfare of society.

I will render, to the best of my ability, complete optometric service,

I will do my utmost to serve my country and community faithfully, as an optometrist and as a citizen.

I will strive by action and deed to honor the title bestowed upon me this day. With firm resolution of purpose and high resolve, I proudly dedicate my work to the betterment of human vision and my life to the service of humanity.

And may God watch over me, and keep me steadfast, in the due performance of this my solemn oath and obligation.
